MIDORI SINCRO

Benvenuti nel mondo di Midori Sincro – La luce in movimento

Vi presentiamo Midori Sincro, la porta scorrevole in vetro che divide gli ambienti con armonia e leggerezza.
Il suo sistema modulare consente di installare più ante che scorrono sincronizzate e silenziose, valorizzando la luce naturale e la continuità degli spazi.
Design essenziale, tecnologia fluida, eleganza senza tempo.
Scopri di più su Midori Sincro e vivi la luce in movimento.

Welcome to the world of Midori Sincro – Light in Motion

Introducing Midori Sincro, the glass sliding door that divides spaces with harmony and lightness.
Its modular system allows multiple panels to slide synchronously and silently, enhancing natural light and spatial continuity.
Essential design, fluid technology, timeless elegance.
Discover more about Midori Sincro and experience light in motion.

Willkommen in der Welt von Midori Sincro – Das Licht in Bewegung

Wir präsentieren Midori Sincro, die Glasschiebetür, die Räume mit Harmonie und Leichtigkeit teilt.
Ihr modulares System ermöglicht mehrere synchron und leise gleitende Flügel, die das natürliche Licht und die räumliche Kontinuität betonen.
Schlichtes Design, fließende Technik, zeitlose Eleganz.
Erleben Sie mehr über Midori Sincro – und das Licht in Bewegung.

Bienvenue dans l'univers de Midori Sincro – La lumière en mouvement

Nous vous présentons Midori Sincro, la porte coulissante en verre qui sépare les espaces avec harmonie et légèreté.
Son système modulaire permet d'installer plusieurs vantaux coulissant de manière synchronisée et silencieuse, valorisant la lumière naturelle et la continuité visuelle.
Design épuré, technologie fluide, élégance intemporelle.
Découvrez-en plus sur Midori Sincro et vivez la lumière en mouvement.

SISTEMA TELESCOPICO BI-DIREZIONALE
BI-DIRECTIONAL TELESCOPIC SYSTEM
BIDIREKTIONALES TELESKOPSYSTEM
SYSTÈME TÉLESCOPIQUE BIDIRECTIONNEL

Midori Sincro nasce per dividere con armonia e leggerezza gli ambienti, valorizzando la luce e l'apertura visiva.
Ideale per chiudere vani di grandi dimensioni, si distingue per il suo sistema modulare, che consente di installare più ante scorrevoli e di adattarsi con eleganza a qualsiasi esigenza di spazio e progetto architettonico.

Le ante scorrono da entrambi i lati con movimento sincronizzato, garantendo fluidità, silenzio e un'eleganza senza tempo. La trasparenza del vetro amplifica la luminosità naturale e crea continuità tra gli ambienti, mentre il design minimale dei profili e le finiture raffinate trasformano ogni passaggio in un dettaglio di stile e funzionalità.

Una soluzione che coniuga tecnologia, estetica e comfort, pensata per chi desidera vivere la luce in movimento.

Midori Sincro was created to divide spaces with harmony and lightness, enhancing brightness and visual openness.
Ideal for large openings, it stands out for its modular system, which allows multiple sliding panels to be installed and to adapt elegantly to any spatial or architectural requirement.

The panels slide from both sides with synchronized movement, ensuring smoothness, silence, and timeless elegance.
The transparency of the glass enhances natural light and creates continuity between spaces, while the minimalist design of the profiles and refined finishes turn every passage into a detail of style and functionality.

A solution that combines technology, aesthetics, and comfort – designed for those who wish to live in the light in motion.

Midori Sincro wurde entwickelt, um Räume harmonisch und leicht zu trennen und gleichzeitig Licht und Offenheit zu betonen.
Ideal für große Öffnungen – das modulare System ermöglicht die Installation mehrerer Schiebetüren, die sich elegant an jede Raum- und Architekturplanung anpassen.

Die Flügel gleiten beidseitig mit synchronisierter Bewegung – sanft, leise und von zeitloser Eleganz.
Die Transparenz des Glases verstärkt das natürliche Licht und schafft Kontinuität zwischen den Räumen, während das minimalistische Profildesign und die edlen Oberflächen jeden Durchgang in ein Detail von Stil und Funktion verwandeln.

Eine Lösung, die Technologie, Ästhetik und Komfort vereint – für alle, die das Licht in Bewegung erleben möchten.

Midori Sincro est née pour séparer les espaces avec harmonie et légèreté, tout en valorisant la lumière et l'ouverture visuelle. Idéale pour fermer de grandes ouvertures, elle se distingue par son système modulaire, qui permet d'installer plusieurs vantaux coulissants et de s'adapter avec élégance à tout type d'espace ou de projet architectural.

Les vantaux coulissent des deux côtés avec un mouvement synchronisé, garantissant fluidité, silence et élégance intemporelle. La transparence du verre amplifie la luminosité naturelle et crée une continuité entre les espaces, tandis que le design minimal des profils et les finitions raffinées transforment chaque passage en un détail de style et de fonctionnalité.

Une solution qui allie technologie, esthétique et confort – conçue pour ceux qui veulent vivre la lumière en mouvement.
