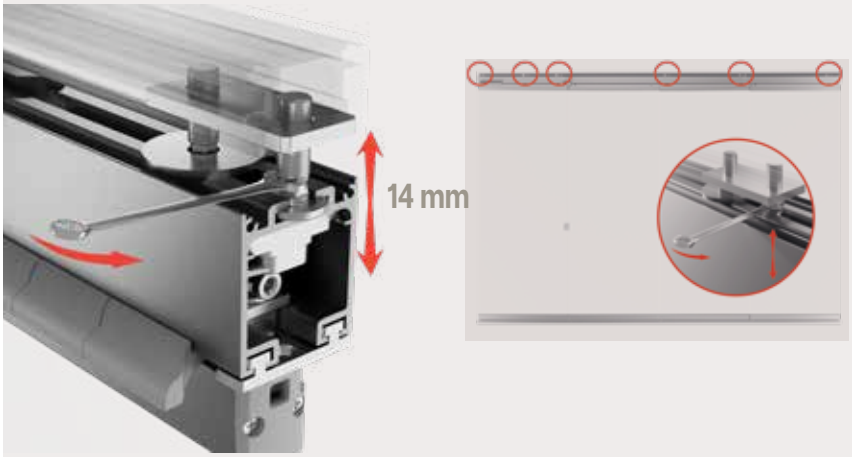
1. REGOLAZIONE DINAMICA - *DYNAMIC ADJUSTMENT - DYNAMISCHE EINSTELLUNG*

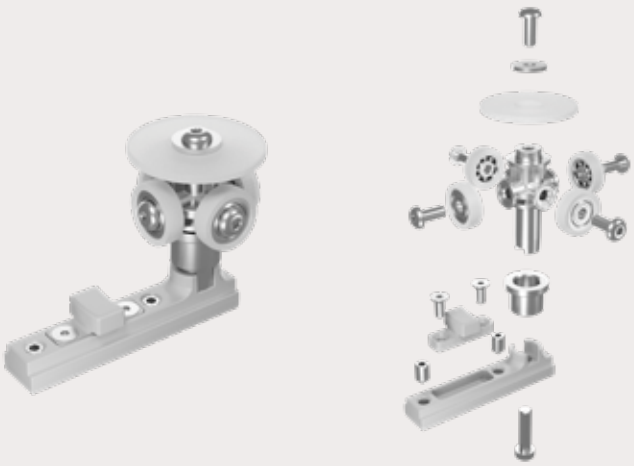


- Regola frontalmente, nella massima comodità, spostando il punto di regolazione dove vuoi ed in qualsiasi momento (anche ad installazione avvenuta) per ottenere la massima efficienza nell'allineamento delle ante.
- *Adjust from the front with maximum convenience by moving the adjustment point wherever and whenever you want (even after installation) to achieve optimal panel alignment.*
- *Komfortable Fronteinstellung durch freie Platzierung des Einstellpunkts – jederzeit und auch nach der Montage – für höchste Effizienz bei der Flügelausrichtung.*

2. SISTEMA FALCE - *HOOK SYSTEM - HAKENSYSTEM*

- Il nostro brevetto che vincola immediatamente le ante dopo una minima rotazione.
  Grazie ad un nuovo upgrade sulla geometria degli elementi, abbiamo migliorato l'efficienza in fase di apertura e impacchettamento.
- *Our patented system locks the panels immediately after minimal rotation. Thanks to an upgrade in the geometry of the components, we've improved the efficiency of opening and stacking.*
- *Unser Patent verriegelt die Flügel sofort nach einer minimalen Drehung. Mit dem neuen Upgrade der Geometrie haben wir die Effizienz beim Öffnen und parken weiter verbessert.*

3. CARRELLO - *CARRIAGE - LAUFWAGEN*



- Insieme alla falce gli elementi che ci contraddistinguono: corpo in Zama e 4 ruote, con diametri maggiorati, per uno scorrimento fluido e unico per questo tipo di prodotto.
- *Together with the hook, our distinctive features include a zamak body and 4 oversized wheels for smooth and unique sliding performance in this product category.*
- *Zusammen mit dem Haken sind dies unsere Erkennungsmerkmale: Zamak-Gehäuse und 4 Räder mit vergrößertem Durchmesser für einen besonders flüssigen Lauf – einzigartig in dieser Produktklasse.*

4. MANUTENZIONE - *MAINTENANCE - WARTUNG*

- Manutenzione ed ispezione senza perdite di tempo e senza fatica, grazie alla possibilità di estrarre l'anta interessata direttamente dalla maschera di uscita senza la necessità di smontare l'intero sistema.
- *Quick and effortless maintenance and inspection thanks to the ability to remove the relevant panel directly from the exit guide without disassembling the entire system.*
- *Wartung und Inspektion schnell und einfach – die betroffene Flügel kann direkt aus dem Austrittsmodul entnommen werden, ohne das gesamte System zu demontieren.*

5. PROFILO ANTA - *PANEL PROFILE - FLÜGELPROFIL*

- Profilo anta minimale ad incollaggio con guarnizione antivento e antinfiltrazione.
- *Minimal panel profile to be glued, with windproof and watertight gasket.*
- *Minimalistisches Flügelprofil zum Verkleben mit wind- und wasserdichter Dichtung.*

6. CONFIGURAZIONI AD ANGOLO - *CORNER CONFIGURATIONS - WINKELKONFIGURATIONEN*

- Il nuovo carrello ad 4 ruote scorre liberalmente in qualsiasi direzione con fluidità senza eguali.
- *The new 4-wheel carriage slides freely in any direction with unmatched smoothness.*
- *Der neue 4-Rollen-Laufwagen bewegt sich frei und außergewöhnlich geschmeidig in alle Richtungen.*

7. TAPPI LATERALI - *ENDCAPS ENDKAPPEN*

- Tappi laterali sagomati per chiusura totale degli spazi tra i profili.
- *Shaped endcaps for total closure of spaces between profiles.*
- *Geformte Endkappen für einen vollständigen Abschluss zwischen den Profilen.*

8. CHIUSURA - *CLOSURE VERSCHLUSS*
